Presentations/ Future Scheduling

Katie Zimmerman from **Charleston Moves**: City/County now supports a stand alone bridge to cross the Ashley River and is seeking a Tiger Grant for financial support. There are neither new design plans nor an engineering study – it's in the early stages.

The proposal by Charleston Moves: "We register our support for the City of Charleston, with any necessary support from Charleston County and the SC DOT, to install expeditiously a safe and connected route, benefitting the most constituents possible, for people on bikes and on foot to cross the Ashley River. Options include a lane conversion to a multi-use path, a cantilevered path that will not impact the bascule, or other designs that are easy to fund, design, and build as soon as possible" was voted on with majority support.

Meeting was adjourned @ 7:59
